

All team meeting on Dec 8 or 9.

For all team meeting:

EE: needs to mount breakbeams

CS: figure out why robots don't drive, some delay?

ME: repair encoders

What has been done:

ME: new design with lower center of mass. Nothing electrically should need to be shifted.

Money:

\$3440 instead of the \$4000 promised. Svilen will look into this. Rui should send Svilen routing numbers to the Edgerton account.
